Brightspace Learning Environment

D2L

EASY. FLEXIBLE. SMART.
Redefining what an LMS should be.
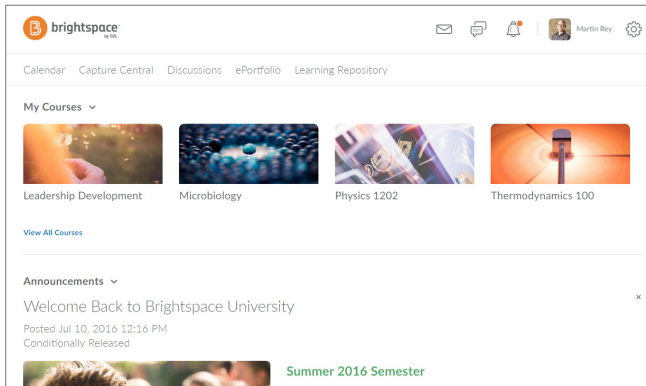

Intuitive interface makes it easy to get started quickly

Built-in analytics reports help you understand your learners

The **Brightspace Learning Environment** redefines what a learning management system can and should be. It goes beyond basic course management functionality to deliver a personalized, collaborative, and accessible learning experience. It combines intuitive interfaces, powerful teaching tools and integrated analytics to deliver a user experience that is easy, flexible, and smart.

KEY BENEFITS

Easy. Learning Environment allows instructors to focus on what really matters: teaching and learning. The intuitive interface makes it easy to design courses, create content, grade assignments, and manage day-to-day class administration.

Flexible. Brightspace gives instructors the freedom to teach the way they want to teach. It supports a variety of delivery models and pedagogical approaches. Instructors can customize the look and feel of the LMS, and seamless integration with third-party learning tools allows them to integrate external resources.

Smart. The Learning Environment helps organizations measure and understand learners' performance. Built-in reports show the performance of entire classes or individual learners. Automated notifications and actions based on learner activities help instructors use this data to meet each learner's needs.

#1 LMS
for next-gen online teaching and learning

"As a market leader, Brightspace by D2L should be included in an institution's list of OLPs"

- 2015 Ovum Report

ABOUT D2L

D2L is the software leader that makes the learning experience better. Our cloud-based platform—Brightspace—is easy, flexible, and smart. It helps educators personalize the experience for every learner to deliver real results. D2L is also a world leader in learning analytics: our platform predicts learner performance so that you can take action in real time to keep them on track. Brightspace is used by learners in higher education, K–12, and the enterprise sector.
