

# SIMPLIFIED CONTENT MANAGEMENT

Powerful search across multiple repositories

Integration directly into course creation workflows

**Brightspace Learning Repository** is a content management system that makes it easy for organizations to discover, manage and share learning resources. It streamlines workflows for publishing and updating course content. It also allows organizations to easily expand the breadth of learning material available by connecting to external libraries.

## KEY BENEFITS

**Easier course development.** Deep integration with the Brightspace Learning Environment makes it easy to design online courses by pulling content from one central source.

**Faster discovery of learning content.** Powerful search capabilities find the most relevant content. Users can browse through repositories, or easily search for across multiple repositories for specific learning materials.

**Wider range of educational resources.** The Learning Repository has built-in support for 3rd party content and integration with Open Educational Resource (OER) platforms. It allows organizations to leverage the knowledge of the broader educational community and improve course quality.

# #1 LMS

for next-gen online teaching and learning

*D2L is demonstrating a commitment to the higher education industry, and is considered a partner—not just a technology provider—by several of its customers.*

- 2015 Ovum Report

## ABOUT D2L

D2L is the software leader that makes the learning experience better. Our cloud-based platform—Brightspace—is easy, flexible, and smart. It helps educators personalize the experience for every learner to deliver real results. D2L is also a world leader in learning analytics: our platform predicts learner performance so that you can take action in real time to keep them on track. Brightspace is used by learners in higher education, K–12, and the enterprise sector.
